PROFILE

I am a first-year Music, Media and Performance Technology student at the University of Limerick. I am a reliable, punctual, hardworking and responsible person. I enjoy interacting with people, I am a good communicator and I would be happy to undertake any work that is required of me.

CAREER HISTORY

Eason, Ballina.

5/9/2013

- When I began working at Eason it was my responsibility to restock the stationary and school books.
- As the weeks progressed I started working on the phones, collecting orders for books. This improved my interpersonal skills.
- I was working alongside other students on work experience. I enjoyed the solidarity of working as a team and helping each other out.
- I also worked at the till and helped customers find the books they were looking for. This work was the most rewarding for me as I enjoyed interacting with customers and helping them.

Killasser National School

15/1/2014

- I began my work at Killasser National School by helping the younger students with their reading.
- I also had the responsibility of looking after the PE class once a week. This hugely helped to develop my leadership skills.
- I also helped the students with their art. I enjoyed this aspect of the job as I have a passion for art and sharing my knowledge was very rewarding.

- My main job during my time at Mark Stephens Architects was model making. The architect would present me with the dimensions of a project and it was my responsibility to construct a model of it.
- After a few weeks at the job I began to use the CAD software. The software we used was VectorWorks and I understood its interface very quickly.
- Occasionally, I would help Mark Stephens with a site visit. This was an aspect of the job that helped my teamwork abilities as we had to work together to measure the site.

ACHIEVEMENTS:

Over the first semester of this year I decided I would write, record, and release a body of music every month. To do this, I woke up early before lectures and recorded a song a week, after each month I had four songs to release as an EP. This semester I have decided to record a full album that I will release at the end of the term.

I have been awarded the Gaisce Bronze award.

After the first semester of this year I received a letter from the president of the university congratulating me for achieving a QCA above 3.6.

I have completed a lifesaving course with my local swimming club.

Recently I have been producing and arranging the debut EP from the band NERVES. This EP is set to be released soon.

My have won the Connacht final twice with my rugby team. The second time I captained my team during the semi-final.

EDUCATION & TRAINING

Completed the end of Semester Exams,
University of Limerick.

Digital Media: A1

Media Processing: A1

Software and Systems: B1

Technological Mathematics: B1

Directed Studies: B1

Completed the Leaving Certificate,
St. Josephs, Foxford Secondary School.

24/6/2016
